# SHIRUDO

**LIGHT AND COMFORTABLE, FR AND ARC RATED, WATER PROOF RAINWEAR**

Shirudo workwear made with GORE-TEX PYRAD® fabric provides flame retardant and arc-flash protection while delivering durably waterproof, windproof, and breathable performance to keep you dry and comfortable so that you can focus on your job.

The highly breathable fabric helps to decrease sweat buildup, keeping you cool in moderate conditions and warm in cool conditions.

The GORE-TEX PYRAD® fabric used in Shirudo workwear is very light weighted, even when wet.

Your safety is enhanced by the fabric's revolutionary self-extinguishing properties which enable gear to maintain its physical integrity even after direct exposure to flames or an arc-flash.

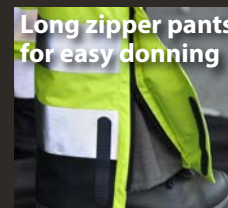

Products made with GORE-TEX PYRAD® fabric consistently meet or exceed ASTM F1891 and/or ASTM 2733 standards. GORE-TEX PYRAD® fabrics are available in high visibility colors that exceed the requirements of ANSI/ISEA 107-2015 and CSA Z95-15 specifications.

**Storm cuffs**

**Fully closing collar**

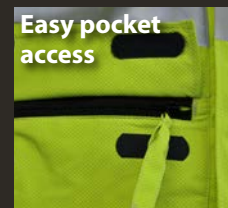

**Long zipper pants for easy donning**

**Easy-to-use zipper pullers**

**Adjustable waistband**

**Easy pocket access**
