HAND DISINFECTION

SAFETY 4 MANKIND

Our **FIT 4 ENTRY Unit** is an easy-to-use solution with **automated temperature measurement and integrated hand sanitizer**. This smart solution is a smaller alternative for our **FIT 4 ENTRY Gate Station** and applicable at any indoor place (easy to set up).

- Fully automated and touchless.
- When a person uses the unit, his/her temperature will automatically be measured by thermal camera integrated in the unit.
- Our system can effectively prevent large-scale disease transmission and has its main function to provide and maintain a sanitary environment for your employees, clients and visitors.
